Now add in a flame thrower, skinable animals, proper crafting and you'll have you're self a real far cry bootleg.. It is basically better than any secondary in the game if u want to play stealth. Almost completely silent, one shot everywhere in the body (not sure about the heavier armored enemies later in the game but a headshot will do). But because this game is a buggy mess, this

thing is completely useless when enemies are alerted and charging toward you. I tried shooting a hostile 10 times (basically everywhere in the body) and nothing happened. He kept shooting at me and in the end I have to use my pistol.. Nice if you want to go all Tomb Raider.. Nice if you want to go all Tomb Raider..
